The Day Chrysler Came to Town

By David Larson

It was a busy November 1963. The United States of America's President was murdered November 22, and his accused murder shot and killed on national television, in an enigmatic event. Locally, a rumor had emerged (which turned out to be factual) that Belvidere was one of a number of sites the Chrysler Corporation was considering to build a state-of-the-art assembly plant. Belvidere School District 100 was contemplating building a new high school. The last school built, Washington, was constructed in 1954, with one wing being a junior high and the other a grade school. Belvidere's population had not increased much during the 20th Century, but an update was being planned. This update was spurred by the opening of the I-90 Tollway in 1959, and the expectation that some growth would be coming - someday.

Belvidere's last population boom had occurred when the National Sewing Machine Company came to town, and located in Downtown Belvidere on the river at State Street. (Zoning wasn't considered in the 1870s.)

Shortly after WWII, the National Sewing Machine Company slowly went out of business.

At the November 18 school board meeting, it was decided to hire a consultant to assist in building a new high school, and establish a citizens' committee to manage the construction and tax referendum campaign needed for construction. Dr. Doug Drake noted that the prospect of property tax revenue from an auto assembly plant would be very helpful. In the end, a high school was built.

In its wisdom, the school board required the architect to design the building for future expansion, which has yet to be fully realized.

On November 22, Shappert Engineering Co. suspended work on the twin Appleton Road bridges next to the Belvidere Park by order of the Boone County Highway Department, pending a decision by Chrysler. It was the county's position that if Chrysler chose Belvidere, the bridges there would need to be expanded to 4 lanes. Doing that now, if needed, would be more economical.

President Kennedy was murdered on the 22nd and his assassin, Lee Harvey Oswald on the 24th.

On November 26, the local newspaper, The *Belvidere Daily Republican*, in an article written by publisher Fred Shappert, announced that Belvidere had been chosen by Chrysler. His editorial expressed three elements that made the difference. A combination of a tollway and the Chicago and North Western Railway provided the necessary transportation requirements. From an engineering perspective, the geological subsurface and comparatively flat land to build on made construction feasible. Finally, the willing eagerness of the community and its governments to embrace the project through the leadership of Mayor Cunningham, assisted by the legal guidance of City Attorney, William "Bud" Freek. That evening, Belvidere City Council, using a motion to suspend the rules by Alderman Pundt, fast-tracked the annexation of the Chrysler property into the City of Belvidere.

Two days later, on November 28th, it was Thanksgiving. Belvidere was crossing a threshold. During the days of mourning a dead President, Belvidere was simultaneously contemplating the effect a Chrysler plant would have on the sleepy town of Belvidere. In a multi-page photo-spread, the newspaper published comments of local residents. Vern Canode, President of the Chamber of Commerce, said, "It will certainly mean larger and better business…I am happy my business is located here…how lucky can a person be to have his home in Belvidere under these circumstances."

Local realtor Jack Brereton: "[W]e will need more houses and apartments."

Dr. Lester Gadde: "Wonderful, Wonderful, Wonderful!"

Knowledgeable people predicted a doubling of population, 150 train cars passing through town daily, as well as several hundred trucks to distribute nearly 1,000 new cars a day, 3000 employee cars in and out every 8 hours, a $50-million construction cost just for the plant, and a $40-million annual payroll! Chrysler's suppliers were expected to locate here as well. The ecosystem hatching from the factory put new life into a moribund town, whose major employer had gone out of business.

The Chamber of Commerce organized a "Recognition Dinner." John DeCarlo, the point man for Chrysler Corporation and a retinue of his associates were guests of honor as were the railroad executives for the Chicago and North Western. It was an evening for all to enjoy.Perhaps Frank Garrigan, who owned a men's clothing store, was the most prophetic in his comment, "This is going to make Belvidere…progress whether we want it or not." Since then, many have lamented the good-old-days, while others realize that Chrysler was just the opening round.

In more recent times, the Internet has made location less important in the world. Still, transportation plays an important role. Climate issues and electrification will transform the energy and transportation industries in the next decade. Will we be still be able to embrace the opportunity that we saw in 1963, or be dragged wherever the winds of change blow us?

The executives that brought the Chrysler Plant project togeather in 1963 (left to right) Gene Cermak of C&NW Railroad, Belvidere Mayor Lester "Red" Cuningham, John DeCarlo Chrysler's Community Affaires Director, Bob MacGruder Belvidere Chamber Executive Director and William "Bud" Freek Belvidere City Attorney.

Public Comment at City Council Debated

By David Larson

Belvidere Mayor Mike Chamberlin, citing a need to "refresh the council's memory," said to the council that recently the limit on the time allotment for the public comment portion of a city council meeting was being exceeded. upon. Mayor Chamberlain did not clarify which meeting or topic he was referring to.

The longest public comment period this year, occurred this spring, when a local television's investigative report on the Belvidere Police Department's abuse of power drew a standing room only crowd that spilled into the hallway.

Presently, the city has an ordinance that limits speakers to 2 minutes for each speaker and a 20-minute total for that portion of a City Council meeting.

At the October 9th City Council Committee-of-the-Whole meeting, Alderman Stevens made a motion to amend the ordinance to read 8 minutes per person with an unlimited total time allocation out of concern that 2 minutes is not enough time to make a point.

A discussion followed. Alderman Brereton agreed with Stevens, but felt that it should be left as is, but not enforced. Snow said he understands Stevens' point, and suggested verbiage so that the rules could be changed "on the fly" as circumstances required.

City Attorney Drella pointed out that this rule does not apply to public hearings and only to the public comment item of a City Council meeting. Drella recommended that some rules should be in place, recommending against not having any.

The Mayor pointed out that the chair could suspend the rules, and that it has been the general practice to not limit public comment.

Stevens' motion was voted down.

Republican Candidate Boone County Board Dist 3

Letter to The Editor

Dear friends,

David Wiltse has my personal endorsement for Boone County Board in District 1. I know him as a hard-working, highly ethical man with a heart for public service. His life-long career in municipal law and local government speaks for itself and makes him uniquely qualified to serve in county government.

David Wiltse has an impressive, 40-year resume that includes 10 years as a Special Assistant Attorney General and nine years as City Attorney for Des Plaines. He has worked for the Illinois legislature and served on a school board and two fire district boards.

It is unfortunate that a few business must suffer for the good of the community. It is also unfortunate that instead of working to make them whole some politicians rather play the blame game out of the misguided belief that it burnishes their image.

OP ED

The role assigned to the Supreme Court by our Constitution's separation of powers is to accept and decide "cases and controversies" (Article III) that are brought to it involving the powers of government or the rights and liberties of citizens. In rendering these decisions the Court must be as impartial as is humanly possible, guided only by the dictates of statutes and the Constitution. Partisanship and personal preference should play no part.

The Court must pursue justice impartially, and must be perceived as doing so. This perception is necessary because Supreme Court decisions are accepted and implemented solely because they are perceived by Americans as fair and just. The court exercises no power other than the power to persuade. It must persuade us that its decisions are fair and just, and that, therefore, we should honor and implement these decisions. It was noted long ago in The Federalist that the Court possessed "neither force nor will, but only judgment..." It is truly "the least dangerous branch" .

Why this impromptu civics lesson? Because the Supreme Court faces grave danger today, not from Republican partisanship, nor from Democratic partisanship. This grave danger stems from both Republican and Democratic hyperpartisanship. Both parties appear all too willing to cast the Court into the cauldron of hyperpartisan politics, thus endangering the one feature essential to the survival of the Court as a functioning institution in our government--faith in its impartiality.

The danger is enhanced enormously by the fact that the weapons that both parties can wield to destroy the Court can be wielded in a perfectly Constitutional manner. The Republicans can proceed Constitutionally to fill the current vacancy. The Democrats, when they gain a Senate majority, can "pack the Court" Constitutionally. The Republicans could someday retaliate legally, followed by Democratic counter retaliation at some future date. Imagine such a future and weep for the Supreme Court. Weep for us.

What would be the likely result of converting the court into such a contemptible "political football"? Contempt. Contempt for an institution that no one is foolish enough to believe is anything more than an unelected bunch of politicians tossing off politicized decisions. Why honor the discredited decisions of such a discredited institution?

The Federalist was accurate and astute in observing that the Supreme Court constituted " the least dangerous branch". We need to take note of the fact that it is also the most vulnerable branch.

Be on Alert for Unemployment Fraud, Identity Theft

From the office of Rep. Keicher

In response to reports of a recent increase in fraudulent unemployment insurance claims that have been filed across Illinois, State Representative Jeff Keicher (R-Sycamore) is encouraging local residents to be on alert if they receive a mailing from the Illinois Department of Employment Security (IDES), the Internal Revenue Service (IRS), and/or the Illinois Comptroller's Office that could signal possible fraudulent activity.

"A number of NIU employees have recently been victims of identity theft that produced fraudulent unemployment claims," Rep. Keicher said. "I want to help make everyone in our community aware of the increased risk of identity theft occurring at the present time, so that each of us can do what we are able to protect ourselves from falling prey to fraud and to respond quickly to any suspicious activity."

If you receive any of the following, but have not applied for unemployment benefits through IDES, it is possible that you are a target for unemployment insurance fraud:

A debit card or direct deposit from IDES

An unemployment insurance (UI) finding letter from IDES

IRS correspondence regarding unreported unemployment benefits

· Notice of State or Federal tax offset

If a fraudulent unemployment claim has been submitted using your identity, you should consider taking the following actions:

Report the fraudulent activity by completing the contact form on the IDES website OR by calling IDES Benefits Payment Control Division at (800) 814-0513 and when prompted:

Select the English or Spanish language option

Select option 1 for claimants

Select option 5 to report identity theft

(*Do NOT use both methods of reporting as it may cause delays in reviewing your case.)

File a police report with your local police department.

Have your credit report checked for other possible fraudulent activity and request a fraud alert.

In an incident that occurred in May 2020, an apparent major security breach involving a database operated by a contractor under the name of IDES is believed to have compromised the Social Security numbers of thousands of Illinois residents. In the wake of this and the continued failure of IDES to manage the influx of unemployment claims filed in the wake of COVID-19, the Governor appointed a new acting director of the agency back in July.

If you believe someone may have filed a fraudulent unemployment insurance claim using your information, please call the IDES benefits Payment Control Division at (800) 814-0513.

$50 Million Available to Expand Access in Underserved Communities

by Peter Hancock Capitol News Illinois

State officials on Monday announced the opening of a second round of grant opportunities for businesses and organizations to expand access to broadband internet service in underserved communities.

Speaking at a news conference in Staunton, about 40 miles northeast of St. Louis, Gov. JB Pritzker said the program will help close a digital divide that existed long before the COVID-19 pandemic, which forced many people to start working from home and students to attend classes remotely.

"While we didn't anticipate a pandemic, even as we passed this program into law in 2019, we knew that the inequities in our learning systems required urgent action," Pritzker said.

Funding for the grants comes from the $400 million Connect Illinois program, which was part of the bipartisan $45 billion capital improvements program known as Rebuild Illinois that lawmakers approved in 2019.

In addition to that money, Pritzker said, lawmakers also dedicated $20 million in state funds to the Illinois Century Network, which provides secure broadband connections to K-12 schools and higher education institutions. And the state is using a portion of its federal Coronavirus Aid, Relief and Economic Security, or CARES Act funding to address inequities in digital access for students.

Pritzker said the goal of those initiatives is to have universal access to broadband service in Illinois by 2024.

Michael Negron, assistant director of the state Department of Commerce and Economic Opportunity, said grants are available for four types of projects: expanding access to broadband services; projects that drive innovation in areas such as telehealth; improving connectivity in urban areas; and investments that improve equity in broadband access in disadvantaged communities.

To be eligible for grants in the first three categories, applicants must put up at least 50 percent of the cost in the form of nonstate matching funds. But for projects to improve equity in disadvantaged communities, Pritzker said, the state is relaxing that requirement.

"Well, as you know, when you get into some of the poorest communities, there are often businesses who don't want to make the investment because they don't believe that they'll be able to get the subscription revenue, for example, that people would have to pay in order to get broadband in those areas," Pritzker said.

Eligible applicants include internet service providers, rural cooperatives, nonprofits and local governments. Grants are available in amounts up to $5 million per project. Subsequent rounds will follow over the course of the next several years.

The application period is open from Nov. 1 through March 1. More information about applying for the grants is available on DCEO's Notice of Funding Opportunity.

During the first round of grants, the state distributed $50 million for projects that brought in an additional $65 million in nonstate matching funds, for a total of $115 million. That money funded projects that are expected to connect more than 26,000 homes, businesses, farms and institutions in all 10 of the state's economic development regions, officials said.

Capitol News Illinois is a nonprofit, nonpartisan news service covering state government and distributed to more than 400 newspapers statewide. It is funded primarily by the Illinois Press Foundation and the Robert R. McCormick Foundation.

Lawmakers Look for Answers from Banking Executives, Community Advocates, Researchers

by Raymon Troncoso Capitol News Illinois Report For America

In Illinois and around the country, an increasing number of universities, investigators and researchers are turning up evidence of systemic racism in the financial sector that has plagued Black Americans for decades

In June, a report from Chicago radio station WBEZ-FM and the nonprofit news organization City Bureau found that for every dollar banks loaned in a white Chicago neighborhood, they only invested 12 cents in Black neighborhoods. A 2019 Duke University study estimates Black Chicagoans lost between $3 to $4 billion in the 1950s and 60s due to predatory housing contracts. A 2013 Pew report shows that nationally, African Americans lost 53 percent of their wealth between 2005 and 2009 due to the collapse of the housing market.

On Thursday, the Illinois Senate Executive and Commerce and Economic Development committees held a joint hearing on racial equity in lending and homeownership. The hearing was the latest in an ongoing series of hearings prompted by the Illinois Legislative Black Caucus agenda to end systemic racism.

"The time is long overdue for Black households to be met with policies that uplift them and provide them with access to better credit and lending opportunities," state Sen. Mattie Hunter, a Chicago Democrat who chairs the Executive Committee, said. "It's imperative that we work to close the wealth gap and level the playing field."

Officials from various state agencies, banking executives, community advocacy groups and researchers all appeared before lawmakers as part of a four-hour hearing that delved into the evidence and ongoing practice of systemic racism in Illinois' financial institutions, and what solutions the state government can pursue in partnership with private firms to end it.

"What we want to see is a lending market where race is not the largest predictor of approval for a home loan. We ultimately want to see a lending market where these disparities do not occur," state Sen. Jacqueline Collins, a Chicago Democrat and chair of the Senate Financial Institutions Committee, said. "We need an end to this cycle of disinvestment, which is at the very root of generational poverty here in Chicago and throughout the state and the country."

Loans

Chasse Rehwinkel, acting director of banking for the Illinois Department of Financial and Professional Regulation, testified that being able to build assets, such as property or businesses, is "key to intergenerational wealth creation. Without adequate access to lending, it is impossible for communities to develop long-lasting economic growth." Rehwinkel said African Americans have historically been and continue to be systematically excluded from this process of wealth creation.

Rehwinkel told lawmakers that African Americans in Chicago were nearly three times more likely to have mortgage applications denied than white applicants. In 2017, according to Rehwinkel, 30.3 percent of mortgage loan applications by African Americans and 22 percent of applications submitted by Latino households were denied in the city.

Referencing WBEZ's report, Rehwinkel explained that Lincoln Park, a primarily white neighborhood in Chicago, received 13 percent greater loan investments from banks than every majority Black neighborhood in the city combined.

"This is a large disparity," Rehwinkel said. "It is only the tip of a larger systematic issue. Our economic system, for better or worse, is built on the extension of credit and the repayment of debt."

According to Rehwinkel, the problem is nationwide. A 2017 report from the Federal Reserve to Congress found that nationally, Black business owners had their applications for credit denied twice as often as white business owners. A 2019 Federal Reserve report on access to credit found that 45 percent of borrowers who were Black and applied for any type of credit in the prior year were denied, compared to 18 percent of white borrowers.

The process of deregulation and consolidation, which has been going on for the last four decades, according to Rehwinkel, has pushed out smaller unique institutions that specialized in serving lower income borrowers and ethnic enclaves in metropolitan areas. That has resulted in some communities being underbanked or having no access to banking services at all, making it harder to obtain loans.

That applies to about 45 percent of African American households, a financial status the Federal Deposit Insurance Corporation estimates costs consumers an average of $182 per year to access their own money.

Rehwinkel suggested lawmakers could help combat systemic inequities by creating programs to incentivize lending in disadvantaged communities and create opportunities for banks to create branches in underbanked communities to cater to individuals who currently lack services.

Cerita Battles, who serves as head of affordable lending at JPMorgan Chase & Co., also testified before the committee.

"As one of the largest lenders to Black and Latinx homeowners nationally, it was apparent that we needed to be more intentional about serving our local communities, especially those of color," Battles said. "We also hold ourselves accountable to doing more, not just in the city of Chicago, but in the state of Illinois and nationally to advance homeownership."

Earlier this month, Chase announced it was committing $30 billion over the next 5 years nationally to "address some of the largest drivers of the racial wealth divide." The commitment includes $8 billion in mortgages and $4 billion in refinance loans, explicitly to help Black and Latino households. Chase has also committed to provide $600 million in mortgage lending to Black and Latino Chicagoans over the next 5 years, making Chicago the only city where the bank made a commitment separate from its national plan, according to WBEZ.

Battles referenced WBEZ's report on lending in Chicago, which showed Chase was the worst offender among major banks in the city for giving less to Black homeowners. As a percentage of all dollars lent by Chase between 2012 and 2018, Black neighborhoods received around 2 percent, 5 percent in Latino neighborhoods.

Wells Fargo, U.S. Bank, Fifth Third Bank and Associated Bank each submitted written testimony affirming support for diversity initiatives and a commitment to more equitable lending in the future, but Battles was the only representative of a banking institution to testify.

Homeownership

Rehwinkel cited a 2018 Brookings Institute paper called "The devaluation of assets in black neighborhoods," which found that homes in Black neighborhoods of similar quality to homes in non-Black neighborhoods were worth 23 percent less, or about $48,000 per home on average, in U.S. metropolitan areas between 2012 and 2016.

That equates to about $156 billion in cumulative losses in asset value for Black homeowners in the United States, more than the combined operating budgets of Illinois, Michigan and Wisconsin's state governments for their most recent fiscal year.

Donna Clarke, interim president of Neighborhood Housing Services of Chicago, spoke to lawmakers about the difficulties faced by Black homeowners around the U.S.

"I've spoken to other Black community development groups in other major urban cities, and yeah the data is the same and in some instances

it's even worse," Clarke said. "In 2019 the Black homeownership rate in the United States hit its second-lowest rate in 26 years at 42.1 percent. In Illinois the rate was even lower at 39 percent."

According to Clarke, the gap in home ownership between Black and white Americans is higher today than it was in 1934. Citing a 2020 MIT study called "The Unequal Costs of Black Homeownership," Clarke told lawmakers that African Americans on average pay higher mortgage interest rates, higher insurance premiums and higher property taxes than white families. By retirement age, those extra housing costs are estimated to equal $67,320 in lost savings, which contributes to the wealth gap and serves as a barrier to Black Americans owning or keeping their homes.

"The financial institutions and other companies make new promises to infuse capital into Black and brown communities… However, if the systemic issues in the mortgage lending process that contributes to these disparities are not also addressed, this money will not reach our communities and we will be here in another 20 years," Clarke said. "At the rate we're going, it's going to take us 238 years to close the racial wealth gap,"

According to Clarke, there is no single solution that will solve every inequity in the housing industry, but down payment assistance would lead to the most immediate and obvious relief for Black homeowners.

Several testified about the appraisal system, which is a somewhat subjective process in which a qualified third party determines a property's value based on factors such as market trends, recent sales and visual inspection of the home.

Critics of the appraisal system say the race of the owner has been shown to skew the value of the home. The Chicago Sun-Times recently reported an incident where a black homeowner in Chicago had their home appraised at a lower price than what they paid. After getting a second appraisal, this time without disclosing their race, the property was valued $62,000 higher than the first appraisal.

A 2020 study that looked at appraised values concluded neighborhood racial composition was a larger factor in appraised value in 2015 than it was in 1980.

Sheila Sutton, who testified as a policy expert representing Housing Action Illinois, spoke about the appraisal process through the lens of her prior work with a lender. "We had homes that were the exact same home… And we had $100,000 difference between appraisals, on homes that were across the street from each other."

Sutton suggested lawmakers could revise the appraisal process at the state level, given that appraisers are licensed by the state.

Collins said the challenges to addressing the issues lie partly in state government's regulatory framework, but she stressed that banks must be held to account.

"The solutions to how we achieve a fairer lending market are going to need to come from banking institutions themselves," she said. "I appreciate the representatives of those institutions who have made time to participate today, but I do want to express disappointment that some have declined to do so."

Hunter said legislators "have a lot of work to do" to remedy the issues before addressing the banking firms in her closing remarks.

"This is a criminal situation here as far as I'm concerned," the senator said. "You have withheld billions and billions and billions of dollars from my community, from our community. And many of y'all really need to lose your license, your banking license. Regulation isn't working, it hasn't worked… Today is the beginning, only the beginning, and we are watching you all, especially as you all sit down with us as soon as possible to resolve these issues."

To the Electors of the State of Illinois:

The Illinois Constitution establishes a structure for government and laws. There are three ways to initiate change to the Illinois Constitution: (1) a constitutional convention may propose changes to any part; (2) the General Assembly may propose changes to any part; or (3) a petition initiative may propose amendments limited to structural and procedural subjects contained in the Legislative Article. The people of Illinois must approve any changes to the Constitution before they become effective. The purpose of this document is to inform you of proposed changes to the Illinois Constitution and provide you with a brief explanation and a summary of the arguments in favor of and in opposition to the proposed amendment. Proposed changes in the existing constitutional amendment are indicated by underscoring all new matter and by crossing with a line all matter which is to be deleted.

PROPOSED AMENDMENT TO SECTION 3 OF ARTICLE IX OF THE ILLINOIS CONSTITUTION ARTICLE IX – REVENUE

SECTION 3. LIMITATIONS ON INCOME TAXATION

(a) The General Assembly shall provide by law for the rate or rates of any tax on or measured by income imposed by the State~~. A tax on or measured by income shall be at a non-graduated rate. At any one time there may be no more than one such tax imposed by the State for State purposes on individuals and one such tax so imposed on corporations~~. In any such tax imposed upon corporations the highest rate shall not exceed the highest rate imposed on individuals by more than a ratio of 8 to 5.

(b) Laws imposing taxes on or measured by income may adopt by reference provisions of the laws and regulations of the United States, as they then exist or thereafter may be changed, for the purpose of arriving at the amount of income upon which the tax is imposed.

EXPLANATION

The proposed amendment grants the State authority to impose higher income tax rates on higher income levels, which is how the federal government and a majority of other states do it. The amendment would remove the portion of the Revenue Article of the Illinois Constitution that is sometimes referred to as the "flat tax," that requires all taxes on income to be at the same rate. The amendment does not itself change tax rates. It gives the State the ability to impose higher tax rates on those with higher income levels and lower tax rates on those with middle or lower income levels. You are asked to decide whether the proposed amendment should become a part of the Illinois Constitution.

ARGUMENTS IN FAVOR OF THE PROPOSED AMENDMENT

Illinois' current tax system unfairly benefits millionaires and billionaires and this amendment will set things right for middle-class and working people. Currently, it is unfair that billionaires pay the same tax rate as regular people.

Voting "yes" on the amendment means that the State will enact a new tax structure where only those making above $250,000 a year will see their taxes go up. This amendment is simply upgrading Illinois' old tax system to a graduated system which is how the federal government and the majority of other states do it.

This Amendment Would Make Illinois' Tax System Fair.

Approval of this amendment would enact a fair system that allows the state to tax wealthy people at higher rates and lower income people at lower rates, replacing Illinois' current unfair tax system, in which wealthy people pay the exact same tax rate as lower and middle income people.

Illinois' current tax system unfairly benefits millionaires and billionaires, and approval of this amendment will set things right for the middle class and working people.

This amendment will help small business owners by creating a stable economic environment for their businesses to thrive.

While others try to mislead you, under the current tax system in Illinois, policymakers already have the authority to set any tax rate and to change tax rates at their will. The current system forces policymakers to charge the same tax rate to everyone, regardless of how much money they make. If this amendment passes, the State will have the ability to tax higher income earners at a different rate.

In fact, upon passage of this Amendment, a new tax structure will go into effect where 97% of taxpayers will pay the same or less, while only those making more than $250,000 a year will see a tax increase.

This amendment does not tax retirement income.

The Federal Government and Most States Use the Graduated Tax System Proposed in this Amendment, Not the Unfair System Currently Used in Illinois.

Illinois is among a minority of states that do not utilize graduated tax rates because the Illinois Constitution requires a "flat tax" that penalizes middle-class and working people and benefits higher income individuals.

A majority of states and the federal government already use the kind of graduated income tax system proposed in this amendment to ensure that wealthy people pay their fair share of taxes.

Nearby states including Iowa, Minnesota, Missouri, Ohio, and Wisconsin are among the majority of states that have graduated tax systems.

Illinois' Current Income Tax System Relies on Taxes from Middle and Lower Income Earners, While a Graduated System Would Lower that Burden and Fund Critical Programs such as Education and Human Services.

While some states have fair tax rates in which the highest income earners pay the highest tax rate, Illinois' "flat tax" rate continues to rely unfairly on taxes from middle and lower income earners.

Under Illinois' "flat tax" structure, a nurse making $50,000 per year pays the same tax rate as an executive making $4 million per year. A graduated tax rate would have the executive pay more.

Because of the way our current tax system is set up, the bottom fifth of Illinois taxpayers (those making below $21,800) contribute 14.4% of their income to state and local taxes, compared to 7.4% for the top 1 percent of Illinois taxpayers.

If this Amendment passes, the State has already enacted a new graduated tax structure where 97% of taxpayers will pay the same or less.

Under the new tax structure, only the top 3% of Illinois income earners would pay more in income taxes. Everyone who makes $250,000 or less a year would pay the same or less.

Over 95% of small businesses earn $250,000 or less a year in profits, and their owners will not see a tax increase under the new tax structure.

This change will generate additional revenue each year that can help address Illinois' budget deficit and fund critical programs, including the State's education system, public safety, and social services like mental health and substance abuse treatment and domestic violence shelters.

After the COVID-19 Pandemic, We Need to Do All We Can to Help the Economy and Middle-Class and Working People.

Working people and essential workers like nurses, first responders, and grocery store clerks should not pay the same tax rate as the wealthy. Nurses making $50,000 a year should not pay the same tax rate as an executive making $4,000,000 a year.

Having wealthy people pay more would reduce the burden on working families. This is money that middle and lower income people need for housing, groceries, medicine, and essentials.

When the wealthiest people pay more, middle and lower income earners can pay less while the State funds critical services that our essential workers rely on.

ARGUMENTS AGAINST THE PROPOSED AMENDMENT

1) The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.
2) Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.
3) In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.

The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.

The proposed amendment would give the Legislature unlimited new authority to increase income tax rates on any group of taxpayers at will, including low-income and middle-income families and small business owners. There would be no limit on the number of tax brackets that could be created and no limit on how high tax rates could be increased on individual taxpayers. In addition, this proposed change will pave the way for a tax on retirement income.

Nothing in the amendment requires the Legislature to do anything to control spending. Nor does it require funds to be spent on essential needs such as healthcare, education, or public safety. It would simply give the Legislature a blank check to spend billions of dollars however they want, with no accountability.

Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.

Illinois already has some of the highest property taxes and sales taxes in the nation. And the Legislature has increased Illinois income tax rates twice in the past decade to try to deal with the out-of-control spending in Springfield.

Even before the COVID-19 pandemic, our state had a huge and growing multi-billion-dollar budget deficit, and the unfunded pension liability skyrocketed to over $137 billion. That's because the Legislature has continued to increase state spending instead of eliminating government waste, corruption, and abuse.

Because they refuse to control spending or pass major reforms, the Legislature will just continue to raise taxes on everyone in Illinois, and middle-class families will be their next target.

In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.

The COVID-19 pandemic caused layoffs, unemployment, bankruptcies, and closures. As small businesses and local employers struggle to rebuild, this is the worst possible time to impose huge new tax increases. Even before the COVID-19 crisis, many residents and businesses were leaving the state because of the high tax burden. If the Amendment passes, it would be the last straw for thousands of small businesses, causing more jobs to leave the state, and making Illinois lose out on investments to rebuild our economy. This would mean fewer jobs and less opportunity for Illinois families.
