Good Times Bad Times

By David Larson

‘Course, I wasn’t the only one that went out of business in 29...’ said Dewey Nichols in an interview for the *Belvidere Daily Republican* on the occasion of the Grand Opening of his newly remodeled Dodge and Plymouth car dealership on South State Street in 1949. The picture this week is of Nichols Motor Company’s newly remodeled building, which today is a restaurant and an auto repair shop at First Street and South State Street. According to Nichols, in the interview, Dodge provided architects for the redesign of the original building.

Problems immediately developed when construction plans began. The new addition was primarily the front portion of an existing building, what we see with the glass blocks. The new addition met with a surprise when old water and sewer lines to the property were not set deep enough to allow construction. The ceiling of the original building did not match the height of the new addition. To make everything work together the contractor Reginald “Reggie” H. Wilcox repoured the concrete floor of the original building. The result was a respectable mid-century small town structure, which would, if it still existed, add to the ambiance of our reviving business district. The heating system, because it could maintain separate temperatures for the showroom and the repair shop, was considered unique at the time. We only know the property belonged to Paul Parson before Nichols and no information is known about the use of the original building before WWII.

The June 10, 1949 edition of the *Belvidere Daily Republican* featured a 2-page advertisement that Nichols purchased to present the dealership to the community. Two hoists for repair work, a body shop and short biographies of the repairmen in his shop and their photographs filled the page. Even his bookkeeper, Luella Hawkey-Bruce, was given a biography and photo. Bud Barr, the stockroom foreman’s photo included the statement: “You’ve all heard of his Army service, and now he’s keeping the parts straight in our stockroom.” One can only guess at what special reference this was as many men in Belvidere had just returned from WWII service. Belvidere had a mayor by the name of “Bud” Barr in the 1980s and is probably the same person.

Dewey Nichols was from Harding, Nebraska, who at a very young age moved to Maynard, Iowa. His first job was as a mechanic in a rail yard until his brother-in-law became a sales agent for Ford in Nora Springs, Iowa. He worked for his brother-in-law as a mechanic on the early Ford Model-T. Saris Motor Company in Beloit hired him away. In 1924, he went to work in Belvidere for Manley Motors when it was located at North State Street and Lincoln Avenue.

In 1928 Nichols opened his own garage at Kishwaukee and Menominee Streets. That building was latter a dairy, a dry cleaners and is in use today by a water-softening business. Then came the depression and the dream of being self-employed was swept away. He included a photo from that pre-Depression shop in his 1949 ad.

Nichols once again found employment at Manley’s as a service manager until 1937. Again, he tried to start his own business by purchasing an existing service department business from Eli

Worden, the Dodge Plymouth dealer in Belvidere on Whitney Boulevard next to the Buick dealer, Simon Motors, which is today an auto body shop. With the war in 1942 auto production stopped and new car dealers could not get inventory. As a result, as Nichols told it, “the Dodge Plymouth franchise became available,” and he bought it and moved it to the 620 South State location.

At the end of May 1953, a fire broke out at Nichols Motor Company on South State Street, doing \$40,000 in damage. The origin of the fire was traced to a police car gas tank in for repair after sparks from a trouble light that was accidentally dropped to the floor and broke while a mechanic was working. Other flammables in the shop added to the fire. The roof was engulfed while cars were shuttled out of the burning building. No one was hurt, but three cars were lost to the fire. The fire chief, Frank Lettow, reported upon his arrival that flames were projecting out of the roof at the rear of the building. Mayor Lester Cunningham was one of the first to arrive and credited the Fire Department for saving the building.

Caution During Holidays Urged as Illinois Continues to See COVID-19 Spikes

Recommendations for family gatherings released by state; test positivity rate climbs again

by Jerry Nowicki Capitol News Illinois

As statewide COVID-19 case counts and hospitalizations continue to increase, officials on Wednesday warned Illinoisans to take precautions ahead of upcoming holiday seasons.

Dr. Ngozi Ezike, Illinois Department of Public Health director, said holiday celebrants should dine outside when possible, consider pre-plating food and having dishes served by a single person rather than serving buffet-style, and always wear

masks when not eating or drinking.

Those hosting indoor gatherings should open windows and consider spacing out the gathering in multiple rooms or seating immediate family members together. The number of people going in and out of the area where food is being prepared should be limited.

“If you are sick, please, please understand that you need to stay home,” Ezike said during a news conference in Chicago. “Don’t assume that your symptoms are not serious. Don’t assume that they aren’t COVID. Don’t assume that you’re not contagious. Take the better decision. And if you are sick, please stay home. We don’t want to have our holidays marred by tragedy on the back end.”

Those who will be traveling for the holidays should limit exposure two weeks before travel, and travelers should consider options that allow for social distancing and should always wear face coverings.

Holiday shoppers should consider online shopping or ordering curbside pickup from their local stores.

The holiday season and the new guidance comes as all of the state’s 11 COVID-19 mitigation regions are seeing increases in their positivity rates from a week ago, Gov. JB Pritzker said at the news conference.

The statewide 7-day rolling positivity rate increased for the 10th straight day to 4.6 percent, and hospitalizations for the virus increased to 1,974, their highest number since June 12. IDPH reported another 2,862 confirmed cases of the virus among 52,669 tests results reported over the previous 24 hours. The state reported 390 intensive care beds and 153 ventilators in use by COVID-19 patients at the end of Tuesday as well.

The state also reported another 49 virus-related deaths over the previous 24 hours, driving the total casualty count since the pandemic began to 9,074 among 327,605 confirmed cases and more than 6.4 million test results reported.

Ezike was asked about “excess deaths,” or the number of deaths this year exceeding expected averages, which could number up to 12,842, according to the U.S. Centers for Disease Control

Candidate Letter

My name is David Wiltse and I appreciate this opportunity to introduce myself to you. I am a Republican candidate for one of the two seats on the County Board from the First district of Boone County.

I have been practicing law for 40 years having been licensed in 1980 after graduating from John Marshall Law School in Chicago. During my practice I was in two different law firms, then was a sole practitioner before I was appointed to the City Attorney job in Des Plaines, where I served from 1993 to 2012, until I retired from that position. When I retired, the Illinois House passed a Resolution honoring me for my lifetime work and law and local government.

During my private practice I represented various government entities, including three municipalities, a township and a Park District and as an associate in a firm representing County Sheriff's throughout Northern Illinois. I also served 10 years as a Special Assistant Attorney General for the Illinois Department of Revenue from 1985 to 1987 and as a Special Assistant Attorney General to the Illinois Department of Lottery from 1987 to 1995. I still practice law semi-retired with an office in my home in Candlewick Lake in Poplar Grove.

In addition to my law practice which has had this focus on local units of government, I served as Treasurer then consultant to the Treasurer on

the Wheeling Township Rural Fire Protection District from 1975 to 1997. In 1983 I was elected to the high school district 214 Board of Education, which at that time was the state's largest High School District having eight high schools and over 14,000 students. My first election to the school board in 1984 was a wild one as there were 22 candidates for five seats on the Board due to the controversial closing of Arlington High School. I received 11,005 votes in that race. I was re-elected in 1987 and again in 1991 and served on that board as member, Vice President, and President. In 1991, Illinois State Board of Education honored me with its highest award of "Excellence in Education" for "Outstanding Contributions to Illinois Education".

During all of these forty years I have learned how government works, especially with regards to setting property tax levies, establishing budgets, and working to provide reasonable solutions to government issues while being conscious of the property tax burden on taxpayers.

My wife Joyce and I retired to Boone County and we really love it here! I would like to bring this lifetime of service in government and law to the Boone County Board and help provide government services as a County Board member while being mindful of tax dollars and spending.

Since moving to Boone County in early 2016, I have been elected Republican Precinct committeeman, elected to the Candlewick Association board and have been appointed to the North Boone Fire District 3 board.

I consider myself to be a conservative and also a person of common sense who realistically evaluates problems before suggesting solutions.

I would like to ask for your vote and would be honored to serve you as Boone County Board member from the First district. Thank you.

on the death certificate, and she said IDPH has examined deaths and found that it was "less than 0.6 percent" of deaths were attributable to cases where COVID-19 would clearly have had no role, such as homicides or car accidents. Previously she has said the state works to remove those deaths from official case counts.

"So yes, there are some other that are included, but those are not the 99.9 percent of the cases of the deaths that we've had," she said.

Region 1 of the state's reopening plan, which has been under increased mitigations including the closure of bars and restaurants to indoor service since Oct. 3, saw its positivity rate increase to 10.1 percent. That region includes the northwest part of the state.

Region 5, which includes southern Illinois and surpassed the 8 percent threshold for mitigations one day ago, saw its rate decrease to 7.7 percent. Three straight days above 8 percent would put the region into increased mitigation territory.

Ezike also announced that Region 6, which includes Champaign County in east-central Illinois, would once again have Champaign County tests counted in its positivity rate calculations, but any tests conducted at the University of Illinois would be excluded. Those tests are done on a surveillance basis on the UI campus and generally produce positivity rates below 1 percent.

Excluding the UI test, the region had a 6.6 percent positivity rate. Other regions ranged from 4.9 to 6.8 percent positivity rates.

Pritzker said the numbers are indicating a "concerning direction."

"Statewide, our positivity rate has grown by more than one full percentage point in the last week alone," he said. "And in most regions, COVID-like hospital admissions have increased in the same period of time. To date, Illinois has had relative success in keeping this virus at bay. And we're still doing better than many of our neighbors but we can't let up."

Ezike said information on the next phase of high school sports would be "released very shortly."

and Prevention.

She said the numbers above the 9,074 death count could result from undiagnosed COVID-19 cases or unintended consequences.

"Some of them will be COVID deaths that were not diagnosed when we didn't have the robust testing. Some of them will be people who may have, because of the devastation of this really traumatic event that we're going through, have had overdoses. We know that overdoses have increased. Some of it may have been people not seeking care, because they were scared of COVID. So it's a conglomerate of all of those things that have caused the deaths to be much higher than they were, than they have been, in previous years."

She was also asked about deaths that have come from accidents but had COVID-19 listed

Letter to The Editor

Dear Editor:

I support the nomination of Judge Amy Coney Barrett as an Associate Justice of the U.S. Supreme Court. Judge Barrett is an incredibly qualified professional with years of experience as a federal judge, law professor, private attorney, and Supreme Court clerk. She will uphold the Constitution as written, preserving and defending the rule of law. Judge Barrett is devoted to the law, her community, and her family. I believe she will be an outstanding Supreme Court Justice and serve as an inspiration to young women throughout the country. As an added bonus, if nominated, she will be the only sitting judge with school age children and the only justice with a J.D. from somewhere other than Harvard or Yale (her J.D. is from Notre Dame).

To function properly, the Supreme Court needs nine justices to work efficiently, and Presidents, along with the U.S. Senate, have the Constitutional responsibility to fill a vacancy on the Supreme Court, even in an election year. Waiting until next year to fill the seat would defy more than 200 years of precedent and could leave the Court deadlocked 4-4 on several major cases they are scheduled to hear beginning in October.

I encourage the U.S. Senate to act swiftly and responsibly to confirm Judge Amy Coney Barrett, an excellent candidate, to the Supreme Court.

“Mayor Mike Chamberlain’s War on Belvidere Taxpayers”

On September 28, Mayor Mike Chamberlain brought forth 3 proposals to the City Council on behalf of the Development and Realtor special interests bent on taking advantage of hardworking Belvidere taxpayers. He asked the council to support gutting impact fees placed upon all residential development originally established in 1995 to insure that developers invest in our community for the burden their development places upon our community services. Mayor Chamberlain also advocated against hardworking Belvidere taxpayers by supporting a 4 year tax abatement and having our city Building Department work for Developers by inspecting their proposed multi-family residential development located off McKinley Avenue for free, waiving any city inspection fees for this developer. What about all the Belvidere homeowners who are required to pay for all permit and inspection fee for their home improvement projects? When can we expect our waiver? After all, we pay the Building

Department salaries, why should we foot the bill for Mayor Chamberlain’s developer/real estate friends?

The abatement and free inspection fees for now, failed at Committee of the Whole, however, after a 5 – 5 council split on abolishing impact fees, for not only this project, but also any future residential building, Mayor Chamberlain cast the deciding vote in favor of developers and realtors in attendance to remove impact fees. NOTE: Those voting with Mayor Chamberlain and his developer/real estate interests were: Ald. Snow, Arivello, Pfluey, Ratcliff and Franks. Council members voting in favor of Belvidere taxpayer interests were: Ald. McGee, Stevens, Brereton, Freeman, Porter. Chamberlain cast the tiebreaking vote in favor of Developers. This would be comical, if not so pathetic for Belvidere Taxpayers. Chamberlain supported all 3 of these taxpayer giveaways on behalf of developers and realtors and the obvious question is WHY?

• Why should ANY taxpayer money be used to promote a private residential multi-family development venture in the first place?

• This is not a development that is weighted with public benefit. It will not materially reduce our unemployment rate. It will not create jobs or long- term employment opportunities. It will not produce any sales tax revenue nor will it address any glaring strategic housing issues our community faces. It will, however, satisfy the greed of those unwilling to invest in our community.

• This project and Impact Fee removal, forces a net drain on city taxpayers now, and poses no likelihood of any reimbursement for the ill-considered taxpayer subsidizing of residential rooftops.

• If a speculator cannot afford the permit fees and land/cash as required by law, then why should taxpayer \$\$ be used to prop up a residential development? Basic economics should prevail, if the project cannot support itself economically, then perhaps it shouldn’t be built.

• With Mayor Chamberlain’s recent increase in our sales tax and gas tax, not to mention his continued misappropriation of the 20 year Utility Tax, is the city that flushed with cash that he can afford to give our tax revenue to Developer wallets? And why would he?

• Why does Chamberlain advocate taxpayers pick up the tab by abating any property taxes for 4 years for a multi-family residential development built on concrete slabs, being sold as high end housing with no taxpayer guarantee they will ever be completed or remain “High End Housing”. What protection do taxpayers have that this development

doesn’t become public housing?

• Why would Mayor Chamberlain agree to have city employees in the Building Department, being paid by Belvidere taxpayers, work free for Developers without asking for any developer contribution? Why would Mayor Chamberlain think taxpayers should provide free inspections to developers?

• Why would Mayor Chamberlain instruct our City Attorney to do the legal legwork for this development? Normally, a developer has his own legal representation, not our City Attorney?

• Why would the City Attorney, when discussing the voting options on the Mayors 3 proposals, fail to instruct the city council of their option of voting simply voting against all 3 proposals?

• While Mayor Chamberlain is busy representing special interests, who is representing the average taxpayer?

• Why would Mayor Chamberlain claim developers are “Redlining” our community because after all these years..... these fees are suddenly the reason developers are not building here? As the recent Boone County Journal article indicated; if this is true then Mayor Mike should identify from who he heard it from and who is redlining? because that practice is illegal. So did Mayor Chamberlain present this redlining to the council as justification to remove fees, abate taxes and provide free building dept work? And if he cannot prove his claim, then was he simply lying to influence the council vote?

So WHY would Mayor Chamberlain so blatantly support such special interests over taxpayer interests? As usual in politics, if one follows the money it becomes obvious that Developers, Builders, Real Estate and Construction have all donated thousands to Mayor Mike Chamberlain re-election campaign. This is simply nothing more than Crony Capitalism at its worst. Mayor Chamberlain is running for his 3rd term of office and what is at stake is his pension on the taxpayer’s dime. And for this type of cronyism?! Mayor Mike is proving the need for term limits.

Belvidere hard working taxpayers do not exist for the benefit of residential developers/realtors and their wallet. Nor do they exist for Mayor Chamberlain’s political benefit. On Monday October 19, the Belvidere City Council needs to vote against Mayor Chamberlain pay for play scheme geared at supporting his special interest campaign investors and vote for hard working taxpayers. I trust they will.

Respectfully,
Clinton Morris

Durkin Calls on Democrats to Demand Madigan Answer Questions or Resign

GOP worries delay tactics will thwart investigation

By Peter Hancock Capitol News Illinois

The top Republican in the Illinois House on Thursday called for Democrats, including Gov. JB Pritzker, to either demand that Democratic House Speaker Michael Madigan answer questions before a Special Investigating Committee or resign immediately.

During a virtual news conference, Minority Leader Jim Durkin, of Western Springs, openly accused the investigating committee's chairman, Hillside Democrat Emanuel "Chris" Welch, of deliberately stalling the investigation until after the Nov. 3 election, a move that Republicans warn could thwart the entire investigation.

"There is one person who is in charge, and that is Gov. Pritzker, and he is the leader of the state Democratic Party," Durkin said. "Today I call on him to immediately demand those answers he has been requesting from Speaker Madigan or demand that he resign immediately."

Durkin is one of three House Republicans who filed a petition calling for the investigation after Madigan was implicated in a bribery scheme involving utility giant Commonwealth Edison. In a deferred prosecution agreement filed in federal court in July, ComEd officials admitted that, over a nine-year period, they awarded no-work jobs and lobbying contracts to Madigan's close associates in order to curry his favor for legislation that benefitted the company.

Republicans argue that Welch, by postponing any further hearings until after the election, has put the investigating committee under a severe time constraint. That's because under House rules, all committees are automatically dissolved when the General Assembly adjourns its biennial session, which is currently scheduled to happen in January.

That means Republicans would have to petition again for a new committee after lawmakers convene in January for the start of the 102nd General Assembly if they want the investigation to continue.

Welch has said he postponed further hearings because he did not want the investigation to be used as "political theater" leading up to the election. As evidence of that, he pointed to the fact that two Republican committee members – Reps. Deanne Mazzochi of Elmhurst and Grant Wehrli of Naperville – called out their Democratic challengers in a news conference this week, demanding they state publicly whether or not they would vote for Madigan for another

term as speaker if they are elected.

But Durkin responded Thursday by insisting the investigation is not political.

"This isn't politics. This is one of the most serious scandals that we've ever experienced in Illinois, and it's just going to get larger," he said. "It has nothing to do with politics. And it's unfortunate that the Democrats look at this as politics."

Madigan himself has not been charged in the bribery scheme and he has denied any wrongdoing. On Friday, Sept. 25, he issued a letter saying he would not testify before the investigating committee, again asserting that all he did was recommend some people for jobs at the company.

Days later, on Sept. 30, Pritzker said during a virtual news conference that he thought Madigan should testify.

"I strongly believe that the speaker should take any opportunity, and this is one, to present answers to the questions that I think all of us have," Pritzker said.

The governor's spokesperson later issued a statement saying, "As the Governor has said, he strongly believes the Speaker should answer questions and that any opportunity to answer questions is one the Speaker should take. That being said, there is a legislative process underway and as a co-equal branch of government, members of the General Assembly have used this process before and they are capable of managing it on their own."

In addition to delaying any further hearings until after the election, Republicans have also complained that Welch is stalling the process by requesting what they call a "data dump" from ComEd, including records of all communications between the company and state officials – including former governors – over the past 10 years.

Republicans say the request could take months to fulfill, and Durkin called it "a fishing expedition" that was irrelevant to the work of the special committee.

"The committee's charge is to investigate Speaker Madigan in his role with the deferred prosecution agreement," Durkin said. "Going back decades to look into communications between a utility and legislative leaders and governors serves no purpose when the purpose of the committee is to determine whether or not Speaker Madigan has maligned the integrity of the chamber and if he's committed conduct that's unbecoming of a member of the House of Representatives."

Welch issued a statement late Thursday saying Durkin's "only goal is political theater" and urging the leader to "put the political performances aside and let our investigation take its course."

"While Leader Durkin grandstands to prop up his politically vulnerable members, the committee is taking productive steps in the process he initiated," he said in the statement. "Democratic and Republican counsel for the committee is working with ComEd to secure the documents both sides have requested."

SCOTUS Scuttles Census After State Commits \$1 Million to Outreach

Supreme Court ruling in favor of Trump administration shortens census deadline by 2 weeks

By Raymon Troncoso Capitol News Illinois Report For America

The U.S. Supreme Court ruled the Trump administration could shorten the U.S. Census count on Tuesday, just hours after the Illinois government committed an additional \$1 million to outreach.

The Trump administration originally tried to shorten the end date of the census to Sept. 30, but federal courts mandated the administration keep the count going until Oct. 31, the extended deadline originally set by the federal government in response to the coronavirus pandemic. However, following the 7-1 SCOTUS ruling, the U.S. Census Bureau announced it was ending the count at 5 a.m. Friday in Illinois.

The Census Bureau will continue to accept self-responses from Illinoisans online at My2020Census.gov through that 5 a.m. deadline and will accept phone responses and paper forms postmarked by Oct. 15.

Gov. JB Pritzker tweeted about the ruling shortly after its announcement, calling the decision "wrong" and saying it could lead to "an undercount in communities that can least afford it, perpetuating generations of disinvestment that make our nation weaker."

Enumeration, or the total rate of households being counted in the census, is currently at 99.9 percent for the U.S. and Illinois, according to the Census Bureau. However, census outreach advocates say that the self-response is a more reliable measure for an accurate count.

"It's not an exact science," said Anita Banerji, director of the Democracy Initiative at Forefront, which conducts census outreach in Illinois.

According to Banerji, multiple factors and situations can affect enumeration tallies conducted by census agents. People living in nursing homes, college campuses and prisons can skew totals. The

start of this year's annual student documentary competition and encourage middle school and high school students to participate in the video documentary competition known as "StudentCam." Students are asked to create a short video documentary and submit it online between November 1, 2020 and January 20, 2021.

This year, the new topic for 2021 submissions is "Explore the issue you most want the president and new Congress to address in 2021." Students are asked to analyze the current and/or historical significance of their chosen issue and include differing points of view. Participants present their views by creating a short video documentary, five to six minutes in length. Students can work in teams or individually to create their videos.

Cash prizes of up to \$100,000 in total will be awarded to winning documentaries. Winners will be announced in March 2021 and the top-rated videos will be televised on C-SPAN in April 2021. Complete competition details and entry forms are available on the C-SPAN StudentCam website <http://www.studentcam.org>.

coronavirus pandemic has displaced families and killed thousands in Illinois over the course of the census count.

"Getting to that 99 percent when you think about all the different challenges we've had, it's not an exact number," Banerji said. "So for all intents and purposes, we as advocates focus on the self-response number because we know that to be more of a tried and true number."

Illinois' self-response rate sits at 71.2 percent as of Tuesday, the 7th highest in the nation, and the state is the most populous in the top 10 for self-response. In 2010, the state's self-response rate was 70.5 percent.

In a release distributed Tuesday before the SCOTUS ruling, the Pritzker administration announced it had spent an additional \$1 million through the Illinois Department of Human Services for "census-related media outreach in communities of color across the state" to encourage more households to fill out self-response forms for the census.

According to that release, "many underserved and marginalized neighborhoods and cities are hovering between a 40-50 percent participation rate," which puts hundreds of millions of federal dollars at stake over the next 10 years. Funds that could go toward programs to assist those traditionally underserved and marginalized communities in Illinois that aren't getting counted.

While the \$1 million expenditure was meant to propel outreach for the last two weeks, IDHS officials said operations to conduct outreach over the next two days are underway and that all money has already been spent.

By law, the Census Bureau must report the results of the census to the president by Dec. 31. According to Banerji, that's a process that normally takes 5 to 6 months to make sure the data is accurate. With less than 3 months from the end of the count to when the bureau must submit that first report, Banerji said compiling data from self-response is much easier for the bureau to confirm its accuracy than data collected by census agents in non-response follow-ups.

Advocates, lawmakers and government officials across the state and the country have been imploring residents to fill out self-response forms as soon as possible before the impending deadline.

"The new census count ends tomorrow," Pritzker said at a news conference Wednesday. "The time to fill it out if you haven't already, is right now. The time to encourage your friends and neighbors to get counted is right now, pick up your phone and go to my2020census.gov, or call 1-844-330-2020. It takes less than 10 minutes. Make your voice heard by getting counted."

State Lax in Tracking, Minority-Owned Businesses

Illinois three years ago began requiring firms getting tax breaks through a state jobs program to report how much they spent with minority- and women-owned vendors. But it has turned into little more than a bureaucratic paper shuffle that collects little useful information.

*By Alex Ruppenthal
Better Government Association*

In an effort to promote diverse businesses, Illinois three years ago passed a law that required companies receiving state tax breaks to report how much work they did with minority- and women-owned vendors.

But since the law went into effect, 119 companies that had more than \$150 million shaved from their tax bills have not submitted any such reports, a Better

-v.- 2019 CH 123
JEFFREY J WASSELL A/K/A JEFFREY WASSELL et al Defendant

NOTICE OF SALE
PUBLIC NOTICE IS HEREBY GIVEN that pursuant to a Judgment of Foreclosure and Sale entered in the above cause on January 21, 2020, an agent for The Judicial Sales Corporation, will at 1:00 PM on November 2, 2020, at the NLT Title L.L.C., 530 S. State, Suite 201 (Logan Avenue entrance), Belvidere, IL, 61008, sell at a public sale to the highest bidder, as set forth below, the following described real estate:

Commonly known as 524 KING STREET, BELVIDERE, IL 61008
Property Index No. 05-26-303-017
The real estate is improved with a single family home with an attached two car garage.

Sale terms: 25% down of the highest bid by certified funds at the close of the sale payable to The Judicial Sales Corporation. No third party checks will be accepted. The balance, including the Judicial Sale fee for the Abandoned Residential Property Municipality Relief Fund, which is calculated on residential real estate at the rate of \$1 for each \$1,000 or fraction thereof of the amount paid by the purchaser not to exceed \$300, in certified funds/or wire transfer, is due within twenty-four (24) hours. No fee shall be paid by the mortgagee acquiring the residential real estate pursuant to its credit bid at the sale or by any mortgagee, judgment creditor, or other lienor acquiring the residential real estate whose rights in and to the residential real estate arose prior to the sale. The subject property is subject to general real estate taxes, special assessments, or special taxes levied against said real estate and is offered for sale without any representation as to quality or quantity of title and without recourse to Plaintiff and in "AS IS" condition. The sale is further subject to confirmation by the court.

Upon payment in full of the amount bid, the purchaser will receive a Certificate of Sale that will entitle the purchaser to a deed to the real estate after confirmation of the sale.

The property will NOT be open for inspection and plaintiff makes no representation as to the condition of the property. Prospective bidders are admonished to check the court file to verify all information.

If this property is a condominium unit, the purchaser of the unit at the foreclosure sale, other than a mortgagee, shall pay the assessments and the legal fees required by The Condominium Property Act, 765 ILCS 605/9(g)(1) and (g)(4). If this property is a condominium unit which is part of a common interest community, the purchaser of the unit at the foreclosure sale other than a mortgagee shall pay the assessments required by The Condominium Property Act, 765 ILCS 605/18.5(g-1).

IF YOU ARE THE MORTGAGOR (HOMEOWNER), YOU HAVE THE RIGHT TO REMAIN IN POSSESSION FOR 30 DAYS AFTER ENTRY OF AN ORDER OF POSSESSION, IN ACCORDANCE WITH SECTION 15-1701(C) OF THE ILLINOIS MORTGAGE FORECLOSURE LAW.

You will need a photo identification issued by a government agency (driver's license, passport, etc.) in order to gain entry into our building and the foreclosure sale room in Cook County and the same identification for sales held at other county venues where The Judicial Sales Corporation conducts foreclosure sales.

Government Association examination has found. And of the 61 firms that did file the required reports, nearly three-quarters reported none of the data the law was intended to gather.

The problems with the state's largest job incentive program are in large part due to the administrations of both Illinois Gov. J.B. Pritzker, a Democrat, and his Republican predecessor, Bruce Rauner, failing to enforce the law, according to the sponsors of the legislation.

Both administrations allowed the tax breaks to continue even after companies failed to submit the forms. For those firms that did submit reports, the administrations interpreted the law to mean the companies only had to file paperwork with the state even if the forms were mostly blank of critical information.

The resulting lack of any significant data intended to detail how much major multinational companies seeking taxpayer help are spending on minority- and women-owned vendors has angered both legislative sponsors.

"We're asking the enforcement body, which is the Department of Commerce, to tell these companies, 'If you're filing these reports, you should be filing them with data,'" said state Rep. Will Davis, a Democrat from suburban Homewood and co-sponsor of the changes to the state's Economic Development for a Growing Economy, or EDGE, jobs program. "That's the expectation."

Illinois Sen. Cristina Castro, a Democrat from Elgin who sponsored the Senate version of the bill, said the language in the law is clear, and she is disappointed it has been interpreted so favorably to companies seeking taxpayer assistance.

"We're giving you state tax dollars. Where are you trying to expand the diversity when it comes to minority-owned spending?" asked Castro. "It's terrible."

A spokesman for Pritzker declined to answer questions about the state's failure to collect the data, offering only a statement about how the governor is "deeply committed" to diversity in state contracts.

The reporting requirement was intended to jumpstart a more widespread trend to include minority- and women-owned businesses and increase sensitivity to fairness and inherent bias in a typically insular corporate world. Experts say collecting data on the backgrounds of suppliers is an incremental first step in the right direction.

"If you benefit from the state in some kind of direct way, tell us how you're doing with minority participation," said Davis, the House sponsor. "If you're not going to comply, then you shouldn't benefit from this state resource."

Illinois puts the total value of corporate tax credits at \$1.7 billion since 1999, when lawmakers created the EDGE program intended to encourage job creation. State officials say EDGE has saved or created more than 80,000 Illinois jobs.

But the long-troubled EDGE program has come under fire for its lack of oversight and failure to deliver many of the jobs that companies promised to create or retain in exchange for tax credits. A state audit of EDGE published this summer raised myriad management issues, including missing documents, lack of internal controls and procedures, and too many staff vacancies.

The state's failure to collect vendor diversity data from companies receiving large tax breaks comes as minority-owned businesses nationwide have shut down at a disproportionately high rate amid the COVID-19 pandemic.

"When you're giving out tax breaks, it represents everyone's taxes," said Kathey Porter, former director of small business and vendor diversity at the University of Florida. "To take tax money from everybody but only certain people or few people get to benefit financially, it's just so egregious that administrators would allow this to occur. It's just such a failure on their part."

Companies large and small — from corner grocery stores to Big Pharma to beer manufacturers — can apply to have state income taxes slashed in half or more on the promise they create or retain jobs in the state.

A BGA review of state records shows that of the 61 companies that filed the required reports, 41

reported no spending with diverse vendors. Of those 41 firms, 21 reported they don't collect data on the backgrounds of their suppliers, and the other 20 provided no reason for the lack of data, records show.

In addition to the reporting requirements, lawmakers in 2017 also increased tax credits for projects located in underserved and poverty-stricken areas by offering tax credits for businesses in those areas of up to 75% instead of the usual 50%. Even so, only 14% of the tax credits awarded since have gone to companies in those communities, records show.

Two companies among the largest tax break recipients — grocery giant Aldi and the credit reporting agency TransUnion — have both filed the required reports but did not provide any data on their spending with diverse vendors.

Aldi received a tax credit of more than \$1.8 million from the state in 2018 and has received an additional \$1.5 million in tax credits since 2015, when the company signed an EDGE agreement pledging to add 100 warehouse and administrative jobs as it expanded its footprint in the western suburbs, according to state records.

TransUnion, one of the country's largest credit reporting agencies, also reported spending 0% of its total expenditures on diverse suppliers after signing an EDGE agreement related to the expansion of its headquarters in the West Loop.

The company received a tax credit of nearly \$1.6 million in 2019.

Officials at TransUnion and Aldi did not return messages.

It has worked before

Although the EDGE requirement does not mandate spending with diverse vendors, history shows that getting companies to report the data is a first step in changing how — and with whom — they do business.

In 2014, the state passed similar requirements for the state's utility companies, such as Commonwealth Edison and Ameren Illinois. According to advocates, those requirements came after years of broken promises on vendor diversity.

Since the law passed, though, Illinois utilities have reported significant increases on spending with minority-, women- and veteran-owned businesses.

ComEd has nearly doubled its spending with diverse vendors from 23% of total expenditures in 2012 to 41% in 2019, for a total of \$738 million last year, according to self-reported data filed with the Illinois Commerce Commission.

'A little bit more aggressive'

Davis and other lawmakers frustrated about DCEO's sputtering response to the 2017 requirements said they are considering more legislation to kick-start the effort.

State Rep. Emanuel "Chris" Welch, a Democrat from west suburban Hillside, last month introduced a measure to create an Office of Diversity and Economic Inclusion within DCEO, require the agency to host "matchmaking workshops" for EDGE recipients and diverse vendors, and demand companies getting tax credits to report on their own workforce diversity in addition to their vendors.

"I think in this watershed moment that we are in history, this is the time now more than ever that we should be given fair contracting opportunities," Welch said during a virtual press conference in August. "If you want to see improvement in Black and Brown communities, you have to invest in our communities."

Meanwhile, Davis said he is considering filing legislation that would strengthen current law to require companies receiving EDGE tax credits to spend certain thresholds on diverse vendors rather than simply report spending levels.

"It's not that we want to be that heavy-handed," he said. "We're hoping that these corporations will simply do the right thing. What the current situation has pushed us into is we need to be a little bit more aggressive."

Castro agreed, saying the state needs to start ensuring that companies "put their money where their mouth is."

"These companies don't feel the need to change," she said. "As we're discussing these things, especially as we're talking about equity, we really should hold folks' feet to the fire, especially when we're giving them tax credits."

To the Electors of the State of Illinois:

The Illinois Constitution establishes a structure for government and laws. There are three ways to initiate change to the Illinois Constitution: (1) a constitutional convention may propose changes to any part; (2) the General Assembly may propose changes to any part; or (3) a petition initiative may propose amendments limited to structural and procedural subjects contained in the Legislative Article. The people of Illinois must approve any changes to the Constitution before they become effective. The purpose of this document is to inform you of proposed changes to the Illinois Constitution and provide you with a brief explanation and a summary of the arguments in favor of and in opposition to the proposed amendment. Proposed changes in the existing constitutional amendment are indicated by underscoring all new matter and by crossing with a line all matter which is to be deleted.

PROPOSED AMENDMENT TO SECTION 3 OF ARTICLE IX OF THE ILLINOIS CONSTITUTION ARTICLE IX – REVENUE

SECTION 3. LIMITATIONS ON INCOME TAXATION

- (a) ~~The General Assembly shall provide by law for the rate or rates of any tax on or measured by income imposed by the State. A tax on or measured by income shall be at a non-graduated rate. At any one time there may be no more than one such tax imposed by the State for State purposes on individuals and one such tax so imposed on corporations.~~ In any such tax imposed upon corporations the highest rate shall not exceed the highest rate imposed on individuals by more than a ratio of 8 to 5.
- (b) Laws imposing taxes on or measured by income may adopt by reference provisions of the laws and regulations of the United States, as they then exist or thereafter may be changed, for the purpose of arriving at the amount of income upon which the tax is imposed.

EXPLANATION

The proposed amendment grants the State authority to impose higher income tax rates on higher income levels, which is how the federal government and a majority of other states do it. The amendment would remove the portion of the Revenue Article of the Illinois Constitution that is sometimes referred to as the "flat tax," that requires all taxes on income to be at the same rate. The amendment does not itself change tax rates. It gives the State the ability to impose higher tax rates on those with higher income levels and lower tax rates on those with middle or lower income levels. You are asked to decide whether the proposed amendment should become a part of the Illinois Constitution.

ARGUMENTS IN FAVOR OF THE PROPOSED AMENDMENT

Illinois' current tax system unfairly benefits millionaires and billionaires and this amendment will set things right for middle-class and working people. Currently, it is unfair that billionaires pay the same tax rate as regular people.

Voting "yes" on the amendment means that the State will enact a new tax structure where only those making above \$250,000 a year will see their taxes go up. This amendment is simply upgrading Illinois' old tax system to a graduated system which is how the federal government and the majority of other states do it.

This Amendment Would Make Illinois' Tax System Fair.

Approval of this amendment would enact a fair system that allows the state to tax wealthy people at higher rates and lower income people at lower rates, replacing Illinois' current unfair tax system, in which wealthy people pay the exact same tax rate as lower and middle income people.

Illinois' current tax system unfairly benefits millionaires and billionaires, and approval of this amendment will set things right for the middle class and working people.

This amendment will help small business owners by creating a stable economic environment for their businesses to thrive.

While others try to mislead you, under the current tax system in Illinois, policymakers already have the authority to set any tax rate and to change tax rates at their will. The current system forces policymakers to charge the same tax rate to everyone, regardless of how much money they make. If this amendment passes, the State will have the ability to tax higher income earners at a different rate. In fact, upon passage of this Amendment, a new tax structure will go into effect where 97% of taxpayers will pay the same or less, while only those making more than \$250,000 a year will see a tax increase.

This amendment does not tax retirement income.

The Federal Government and Most States Use the Graduated Tax System Proposed in this Amendment, Not the Unfair System Currently Used in Illinois.

Illinois is among a minority of states that do not utilize graduated tax rates because the Illinois Constitution requires a "flat tax" that penalizes middle-class and working people and benefits higher income individuals.

A majority of states and the federal government already use the kind of graduated income tax system proposed in this amendment to ensure that wealthy people pay their fair share of taxes.

Nearby states including Iowa, Minnesota, Missouri, Ohio, and Wisconsin are among the majority of states that have graduated tax systems.

Illinois' Current Income Tax System Relies on Taxes from Middle and Lower Income Earners, While a Graduated System Would Lower that Burden and Fund Critical Programs such as Education and Human Services.

While some states have fair tax rates in which the highest income earners pay the highest tax rate, Illinois' "flat tax" rate continues to rely unfairly on taxes from middle and lower income earners.

Under Illinois' "flat tax" structure, a nurse making \$50,000 per year pays the same tax rate as an executive making \$4 million per year. A graduated tax rate would have the executive pay more.

Because of the way our current tax system is set up, the bottom fifth of Illinois taxpayers (those making below \$21,800) contribute 14.4% of their income to state and local taxes, compared to 7.4% for the top 1 percent of Illinois taxpayers.

If this Amendment passes, the State has already enacted a new graduated tax structure where 97% of taxpayers will pay the same or less.

Under the new tax structure, only the top 3% of Illinois income earners would pay more in income taxes. Everyone who makes \$250,000 or less a year would pay the same or less.

Over 95% of small businesses earn \$250,000 or less a year in profits, and their owners will not see a tax increase under the new tax structure.

This change will generate additional revenue each year that can help address Illinois' budget deficit and fund critical programs, including the State's education system, public safety, and social services like mental health and substance abuse treatment and domestic violence shelters.

After the COVID-19 Pandemic, We Need to Do All We Can to Help the Economy and Middle-Class and Working People.

Working people and essential workers like nurses, first responders, and grocery store clerks should not pay the same tax rate as the wealthy. Nurses making \$50,000 a year should not pay the same tax rate as an executive making \$4,000,000 a year.

Having wealthy people pay more would reduce the burden on working families. This is money that middle and lower income people need for housing, groceries, medicine, and essentials.

When the wealthiest people pay more, middle and lower income earners can pay less while the State funds critical services that our essential workers rely on.

ARGUMENTS AGAINST THE PROPOSED AMENDMENT

- 1) The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.
- 2) Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.
- 3) In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.

The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.

The proposed amendment would give the Legislature unlimited new authority to increase income tax rates on any group of taxpayers at will, including low-income and middle-income families and small business owners. There would be no limit on the number of tax brackets that could be created and no limit on how high tax rates could be increased on individual taxpayers. In addition, this proposed change will pave the way for a tax on retirement income.

Nothing in the amendment requires the Legislature to do anything to control spending. Nor does it require funds to be spent on essential needs such as healthcare, education, or public safety. It would simply give the Legislature a blank check to spend billions of dollars however they want, with no accountability.

Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.

Illinois already has some of the highest property taxes and sales taxes in the nation. And the Legislature has increased Illinois income tax rates twice in the past decade to try to deal with the out-of-control spending in Springfield.

Even before the COVID-19 pandemic, our state had a huge and growing multi-billion-dollar budget deficit, and the unfunded pension liability skyrocketed to over \$137 billion. That's because the Legislature has continued to increase state spending instead of eliminating government waste, corruption, and abuse.

Because they refuse to control spending or pass major reforms, the Legislature will just continue to raise taxes on everyone in Illinois, and middle-class families will be their next target.

In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.

The COVID-19 pandemic caused layoffs, unemployment, bankruptcies, and closures. As small businesses and local employers struggle to rebuild, this is the worst possible time to impose huge new tax increases. Even before the COVID-19 crisis, many residents and businesses were leaving the state because of the high tax burden. If the Amendment passes, it would be the last straw for thousands of small businesses, causing more jobs to leave the state, and making Illinois lose out on investments to rebuild our economy. This would mean fewer jobs and less opportunity for Illinois families.
